

## Accepted Manuscript

Liposome-supported peritoneal dialysis in the treatment of severe hyperammonemia: An investigation on potential interactions

Giovanna Giacalone, Simon Matoori, Valentina Agostoni, Vincent Forster, Meriam Kabbaj, Sarah Eggenschwiler, Martin Lussi, Andrea De Gottardi, Nicola Zamboni, Jean-Christophe Leroux

PII: S0168-3659(18)30167-6  
DOI: doi:[10.1016/j.jconrel.2018.03.030](https://doi.org/10.1016/j.jconrel.2018.03.030)  
Reference: COREL 9222  
To appear in: *Journal of Controlled Release*  
Received date: 26 February 2018  
Revised date: 24 March 2018  
Accepted date: 26 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
