

## Accepted Manuscript

Quantification of ligand density and stoichiometry on the surface of liposomes using single-molecule fluorescence imaging

Lisa Belfiore, Lisanne M. Spenkeliink, Marie Ranson, Antoine M. van Oijen, Kara L. Vine

PII: S0168-3659(18)30151-2  
DOI: doi:[10.1016/j.jconrel.2018.03.022](https://doi.org/10.1016/j.jconrel.2018.03.022)  
Reference: COREL 9214  
To appear in: *Journal of Controlled Release*  
Received date: 4 February 2018  
Accepted date: 21 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Quantification of ligand density and stoichiometry on the surface of liposomes using single-molecule fluorescence imaging
