

## Accepted Manuscript

Bone-targeting nanoparticle to co-deliver decitabine and arsenic trioxide for effective therapy of myelodysplastic syndrome with low systemic toxicity

Xiaoyan Wu, Zhenhua Hu, Sara Nizzero, Guodong Zhang, R. Maricela Ramirez, Ce Shi, Jin Zhou, Mauro Ferrari, Haifa Shen

PII: S0168-3659(17)30901-X  
DOI: [doi:10.1016/j.jconrel.2017.10.012](https://doi.org/10.1016/j.jconrel.2017.10.012)  
Reference: COREL 8999

To appear in: *Journal of Controlled Release*

Received date: 30 May 2017  
Revised date: 23 September 2017  
Accepted date: 12 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **Bone-targeting nanoparticle to co-deliver decitabine and arsenic trioxide for effective therapy of myelodysplastic syndrome with low systemic toxicity**
