Stimulus-responsive viral vectors for controlled delivery of therapeutics

Mitchell J. Brun, Eric J. Gomez, Junghae Suh

PII: S0168-3659(17)30788-5
DOI: doi: [10.1016/j.jconrel.2017.08.021](https://doi.org/10.1016/j.jconrel.2017.08.021)
Reference: COREL 8923

To appear in: *Journal of Controlled Release*

Received date: 11 May 2017
Revised date: 17 August 2017
Accepted date: 19 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Stimulus-responsive viral vectors for controlled delivery of therapeutics**Mitchell J. Brun,¹ Eric J.
