From formulation of acrylamide-based hydrogels to their optimization for drug release using response surface methodology

Farzaneh Sabbagh, Ida Idayu Muhamad, Zahra Nazari, Peyman Mobini, Sara Baghban Taraghdari

PII: S0928-4931(17)34071-7
DOI: doi:[10.1016/j.msec.2018.06.022](https://doi.org/10.1016/j.msec.2018.06.022)
Reference: MSC 8661
To appear in: *Materials Science & Engineering C*
Received date: 10 October 2017
Revised date: 30 April 2018
Accepted date: 11 June 2018

Please cite this article as: Farzaneh Sabbagh, Ida Idayu Muhamad, Zahra Nazari, Peyman Mobini, Sara Baghban Taraghdari , From formulation of acrylamide-based hydrogels to their optimization for drug release using response surface methodology. Msc (2017), doi:[10.1016/j.msec.2018.06.022](https://doi.org/10.1016/j.msec.2018.06.022)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

From Formulation of Acrylamide-based hydrogels to Their Optimization for Drug Release Using Response Surface Methodology

Author names and affiliations:
