Mussel-inspired dual-functional PEG hydrogel inducing mineralization and inhibiting infection in maxillary bone reconstruction

Huiyong Xu, Ge Zhang, Kaige Xu, Leyu Wang, Lei Yu, Malcolm M.Q. Xing, Xiaozhong Qiu

PII: S0928-4931(17)33634-2
DOI: doi:[10.1016/j.msec.2018.04.066](https://doi.org/10.1016/j.msec.2018.04.066)
Reference: MSC 8523
To appear in: *Materials Science & Engineering C*
Received date: 8 September 2017
Revised date: 7 April 2018
Accepted date: 21 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
