Facile construction of luminescent supramolecular assemblies with aggregation-induced emission feature through supramolecular polymerization and their biological imaging

Lili Guo, Dazhuang Xu, Long Huang, Meiyong Liu, Hongye Huang, Jianwen Tian, Ruming Jiang, Yuanqing Wen, Xiaoyong Zhang, Yen Wei

PII: S0928-4931(17)32713-3
DOI: <https://doi.org/10.1016/j.msec.2017.12.031>
Reference: MSC 8377
To appear in: *Materials Science & Engineering C*
Received date: 11 July 2017
Revised date: 11 September 2017
Accepted date: 28 December 2017

The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Msc(2017), <https://doi.org/10.1016/j.msec.2017.12.031>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Facile construction of luminescent supramolecular assemblies with aggregation-induced emission feature through supramolecular polymerization and their biological imaging
