Chlorhexidine-calcium phosphate nanoparticles - polymer mixer based wound healing cream and their applications

Kaliyaperumal Viswanathan, P. Monisha, M. Srinivasan, D. Swathi, M. Raman, G. Dhinakar Raj

PII: S0928-4931(16)30508-2
DOI: doi: [10.1016/j.msec.2016.05.075](https://doi.org/10.1016/j.msec.2016.05.075)
Reference: MSC 6565

To appear in: *Materials Science & Engineering C*

Received date: 13 January 2016
Revised date: 19 April 2016
Accepted date: 18 May 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Chlorhexidine-calcium phosphate nanoparticles - polymer mixer based
wound healing cream and their applications.**
