Synchrotron tomographic quantification of the influence of Zn concentration on dendritic growth in Mg-Zn alloys

Sansan Shuai, Enyu Guo, Jiang Wang, A.B. Phillion, Tao Jing, Zhongming Ren, Peter D. Lee

PII: S1359-6454(18)30494-4

DOI: [10.1016/j.actamat.2018.06.026](https://doi.org/10.1016/j.actamat.2018.06.026)

Reference: AM 14655

To appear in: *Acta Materialia*

Received Date: 5 December 2017

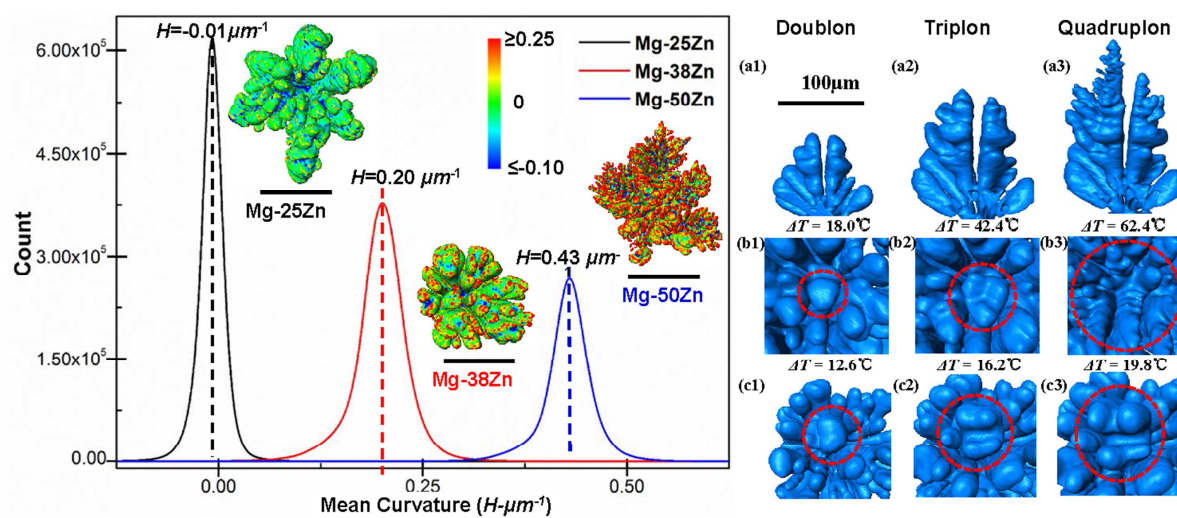

Revised Date: 13 June 2018

Accepted Date: 13 June 2018

Please cite this article as: S. Shuai, E. Guo, J. Wang, A.B. Phillion, T. Jing, Z. Ren, P.D Lee, Synchrotron tomographic quantification of the influence of Zn concentration on dendritic growth in Mg-Zn alloys, *Acta Materialia* (2018), doi: 10.1016/j.actamat.2018.06.026.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Synchrotron Tomography Reveals Branching Mechanisms in Mg-Zn alloys
