

Accepted Manuscript

Fundamental aspects about the first steps of irradiation-induced phase transformations in fluorite-related oxides

Bertrand Lacroix, Rolly J. Gaboriaud, Fabien Paumier

PII: S1359-6454(18)30343-4

DOI: [10.1016/j.actamat.2018.04.058](https://doi.org/10.1016/j.actamat.2018.04.058)

Reference: AM 14546

To appear in: *Acta Materialia*

Received Date: 14 December 2017

Revised Date: 17 March 2018

Accepted Date: 25 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Cubic-to-Monoclinic transformation in Y_2O_3 thin films

Anionic extended defects

Residual stresses

Monoclinic phase nucleation-growth

irradiation energy dependence
intermediate amorphous state
preferential orientation relationship $(40\bar{2})^B // (222)^C$
