Enhanced dynamic mechanical properties of cement paste modified with graphene oxide nanosheets and its reinforcing mechanism

Wu-Jian Long, Jing-Jie Wei, Feng Xing, Kamal H. Khayat

PII: S0958-9465(17)31166-6

DOI: [10.1016/j.cemconcomp.2018.07.001](https://doi.org/10.1016/j.cemconcomp.2018.07.001)

Reference: CECO 3092

To appear in: *Cement and Concrete Composites*

Received Date: 22 December 2017

Revised Date: 10 April 2018

Accepted Date: 3 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Enhanced dynamic mechanical properties of cement paste modified**
2 **with graphene oxide nanosheets and its reinforcing mechanism**
