Reaction kinetics of red mud-fly ash based geopolymers: Effects of curing temperature on chemical bonding, porosity, and mechanical strength

Mo Zhang, Mengxuan Zhao, Guoping Zhang, Jennifer M. Sietins, Sergio Granados-Focil, Marc S. Pepi, Yan Xu, Mingjiang Tao

PII: S0958-9465(18)30060-X

DOI: [10.1016/j.cemconcomp.2018.07.008](https://doi.org/10.1016/j.cemconcomp.2018.07.008)

Reference: CECO 3099

To appear in: *Cement and Concrete Composites*

Received Date: 18 January 2018

Revised Date: 25 May 2018

Accepted Date: 17 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Reaction kinetics of red mud-fly ash based geopolymers: effects of curing temperature**  
2 **on chemical bonding, porosity, and mechanical strength**
