In vitro characterization of porous calcium phosphate scaffolds capped with crosslinked hydrogels to avoid inherent brittleness

Chin-Wei Chang, Yu-Ren Wu, Kai-Chi Chang,  
Chia-Ling Ko, Dan-Jae Lin, Wen-Cheng Chen

PII: S0272-8842(17)32270-8  
DOI: <https://doi.org/10.1016/j.ceramint.2017.10.077>  
Reference: CERII6496

To appear in: *Ceramics International*

Received date: 18 September 2017  
Revised date: 12 October 2017  
Accepted date: 12 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

(Ms. Ref. No.: CERI-D-17-07373-R1)

**Title: In vitro characterization of porous calcium phosphate scaffolds capped with crosslinked hydrogels to avoid inherent brittleness**
