Environmental Resistance of Flax/Bio-based Epoxy and Flax/Polyurethane Composites Manufactured by Resin Transfer Moulding

Nils Cuinat-Guerraz, Marie-Josée Dumont, Pascal Hubert

PII: S1359-835X(16)30139-7
DOI: <http://dx.doi.org/10.1016/j.compositesa.2016.05.018>
Reference: JCOMA 4308

To appear in: *Composites: Part A*

Received Date: 23 September 2015
Revised Date: 10 May 2016
Accepted Date: 18 May 2016

Please cite this article as: Cuinat-Guerraz, N., Dumont, M-J., Hubert, P., Environmental Resistance of Flax/Bio-based Epoxy and Flax/Polyurethane Composites Manufactured by Resin Transfer Moulding, *Composites: Part A* (2016), doi: <http://dx.doi.org/10.1016/j.compositesa.2016.05.018>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Environmental Resistance of Flax/Bio-based Epoxy and Flax/Polyurethane Composites Manufactured by Resin Transfer Moulding
