Title: 3D Time-Resolved Observations of Corrosion During Corrosion Fatigue Crack Initiation and Growth from Corrosion Pits in Peak-Aged Al 7075 Using Synchrotron X-ray Tomography

Authors: Tyler J. Stannard, Jason J. Williams, Sudhanshu S. Singh, Arun Sundar Sundaram Singaravelu, Xianghui Xiao, Nikhilesh Chawla

PII: S0010-938X(17)31979-0
DOI: <https://doi.org/10.1016/j.corsci.2018.04.029>
Reference: CS 7495

To appear in:

Received date: 2-11-2017
Revised date: 19-4-2018
Accepted date: 23-4-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
