

## Accepted Manuscript

Title: A convenient way of activating carbon quantum dots and the efficient isolation

Authors: Yong Kuai, Raohao Fang, Changchang Zhang, Xiang Liu, Liang Ma

PII: S0025-5408(17)33866-7  
DOI: <https://doi.org/10.1016/j.materresbull.2018.03.008>  
Reference: MRB 9889

To appear in: *MRB*

Received date: 8-10-2017

Please cite this article as: Kuai Y, Fang R, Zhang C, Liu X, Ma L, A convenient way of activating carbon quantum dots and the efficient isolation, *Materials Research Bulletin* (2018), <https://doi.org/10.1016/j.materresbull.2018.03.008>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## A convenient way of activating carbon quantum dots and the efficient isolation
