

## Accepted Manuscript

Title: Sn-MOF derived bimodal-distributed SnO<sub>2</sub> nanosphere as a high performance anode of sodium ion batteries with high gravimetric and volumetric capacities

Authors: Xiaoxiao Lu, Fang Luo, Qinqin Xiong, Hongzhong Chi, Haiying Qin, Zhenguo Ji, Lingcong Tong, Hongge Pan

PII: S0025-5408(17)32953-7  
DOI: <https://doi.org/10.1016/j.materresbull.2017.10.040>  
Reference: MRB 9649

To appear in: *MRB*

Received date: 29-7-2017  
Revised date: 7-10-2017  
Accepted date: 27-10-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
