Title: Plasmonic Ag/Ag₂O nanoparticles anchored needle-like Bi₂O₃ as an efficient visible-light-driven nanocomposite photocatalyst

Authors: Ziba Mohammadian Fard, Mozghan Bagheri, Hassan Zavvar Mousavi, Sasan Rabieh

PII: S0025-5408(17)33593-6
DOI: <https://doi.org/10.1016/j.materresbull.2018.01.053>
Reference: MRB 9824

To appear in: *MRB*

Received date: 18-9-2017
Revised date: 27-12-2017
Accepted date: 31-1-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
