Title: PVP-assisted enhancement in ion storage performance of sol-gel derived nano-structured NiCo₂O₄ thin films as battery-type electrode

Authors: H. Behzad, F.E. Ghodsi

PII: S0025-5408(17)31870-6
DOI: <https://doi.org/10.1016/j.materresbull.2017.11.031>
Reference: MRB 9689

To appear in: *MRB*

Received date: 11-5-2017
Revised date: 25-10-2017
Accepted date: 14-11-2017

Please cite this article as: H.Behzad, F.E.Ghodsi, PVP-assisted enhancement in ion storage performance of sol-gel derived nano-structured NiCo₂O₄ thin films as battery-type electrode, Materials Research Bulletin <https://doi.org/10.1016/j.materresbull.2017.11.031>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

PVP-assisted enhancement in ion storage performance of sol-gel derived nano-structured NiCo₂O₄ thin films as battery-type electrode
