

Accepted Manuscript

Title: Gas sensor based on three dimensional Bi₂S₃ nanowires network for ammonia detection at room temperature

Author: Tie-Xiang Fu

PII: S0025-5408(17)31865-2
DOI: <https://doi.org/10.1016/j.materresbull.2017.11.038>
Reference: MRB 9696

To appear in: *MRB*

Received date: 11-5-2017
Revised date: 8-10-2017
Accepted date: 21-11-2017

Please cite this article as: Fu T-X, Gas sensor based on three dimensional Bi₂S₃ nanowires network for ammonia detection at room temperature, *Materials Research Bulletin* (2010), <https://doi.org/10.1016/j.materresbull.2017.11.038>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Gas sensor based on three dimensional Bi_2S_3 nanowires network for ammonia detection at room temperature

Tie-Xiang Fu*

Department of chemistry and biological engineering, Changsha University of Science & Technology, Wanjiali Road, Changsha 410004, Hunan, PR China.

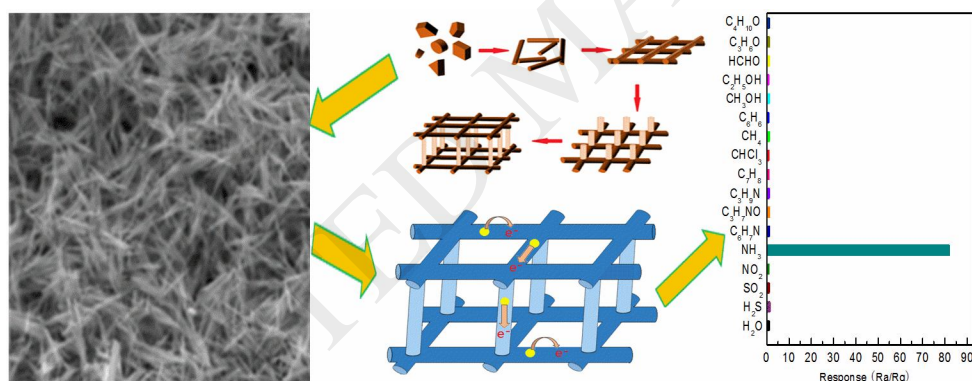

*Corresponding author: Tie-Xiang Fu, he is willing to handle correspondence at all stages of refereeing and publication, also post-publication.

Tel.: +86 15074985299.

Postal address: 306 Juyuan Road, Changsha 410004, Hunan, PR China.

E-mail addresses: ftxjyl@163.com.

Graphical abstract

Highlights

- ▶ Three dimensional Bi_2S_3 nanowires networks.
- ▶ High response to NH_3 gas.
- ▶ Good selectivity.
- ▶ Wide linear range.
- ▶ Work at room temperature.
