Dielectric spectroscopy investigation of proton transfer processes in carboxymethyl alpha-cyclodextrin polymer cross-linked by epichlorohydrin

Panagoula K. Papaioannou, Chaido S. Karagianni, Glykeria Kakali, Vasileios G. Charalampopoulos

PII: S0022-3697(17)30488-2

DOI: [10.1016/j.jpcs.2017.09.029](https://doi.org/10.1016/j.jpcs.2017.09.029)

Reference: PCS 8222

To appear in: *Journal of Physics and Chemistry of Solids*

Received Date: 15 March 2017

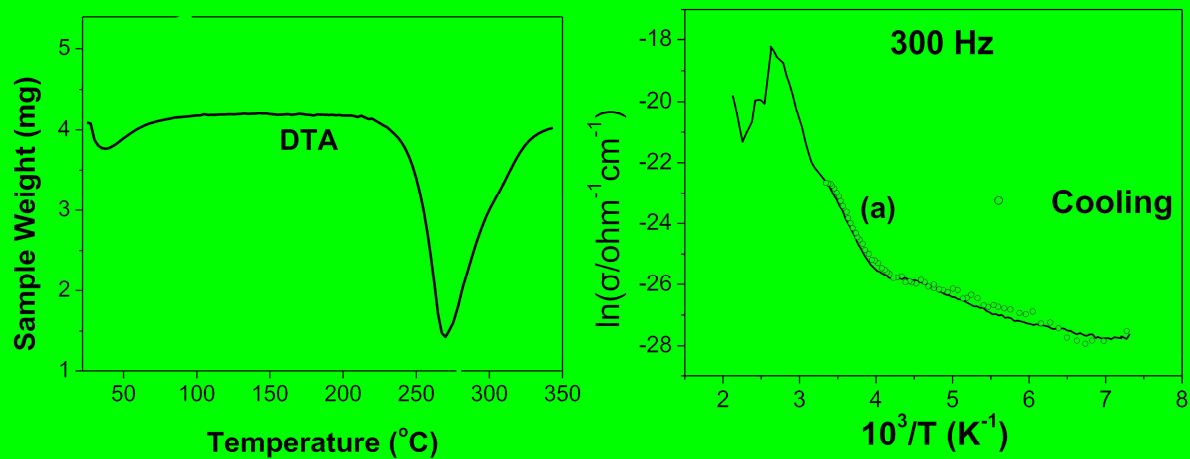

Revised Date: 20 September 2017

Accepted Date: 21 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
