Two-step preparation of amidoxime-functionalized natural zeolites hybrids for the removal of Pb^{2+} ions in aqueous environment

T. Puspitasari, G.T.M. Kadja, C.L. Radiman, D. Darwis, R.R. Mukti

PII: S0254-0584(18)30489-9

DOI: 10.1016/j.matchemphys.2018.05.083

Reference: MAC 20699

To appear in: *Materials Chemistry and Physics*

Received Date: 13 January 2018

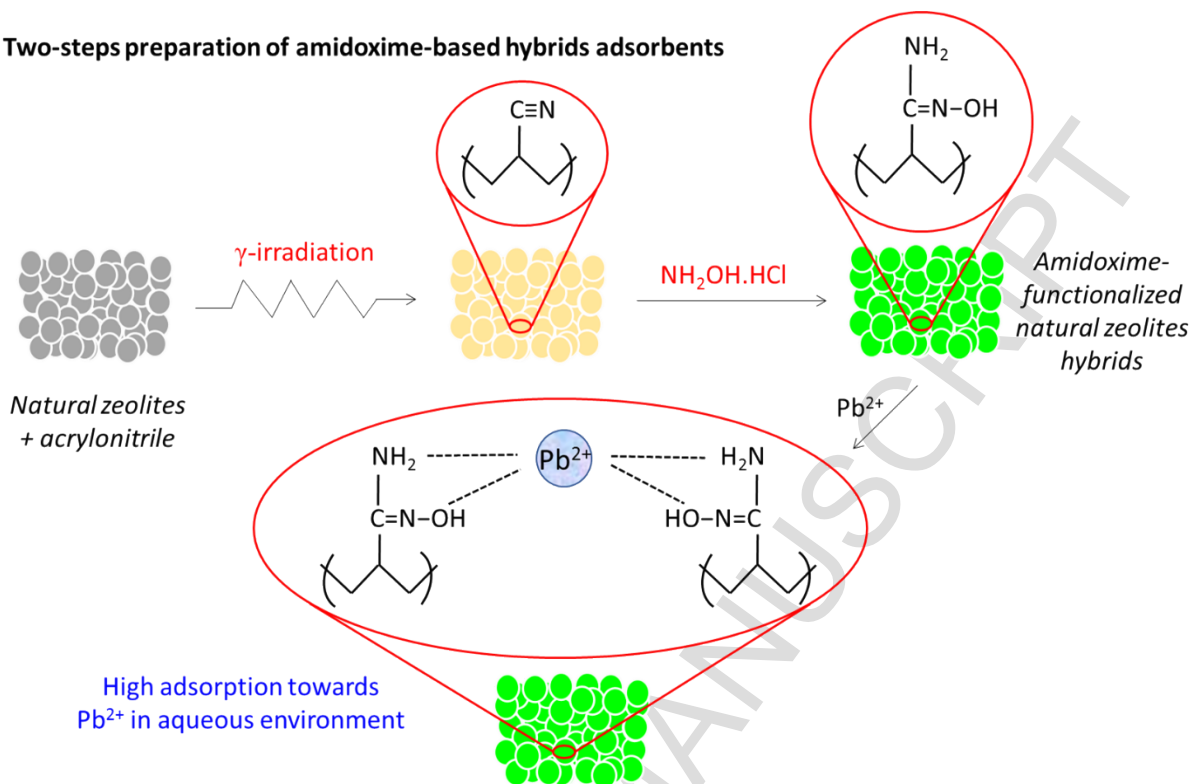

Accepted Date: 31 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphical Abstract

Two-steps preparation of amidoxime-based hybrids adsorbents
