Low Temperature Phase Transition Studies of Ammonia Borane-Polyacrylamide Composites

Krishna Kharel, Radhika Gangineni, Özge Günaydın-Şen

PII: S0254-0584(18)30324-9
DOI: 10.1016/j.matchemphys.2018.04.055
Reference: MAC 20550
To appear in: *Materials Chemistry and Physics*
Received Date: 13 January 2018
Revised Date: 27 March 2018
Accepted Date: 15 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Low Temperature Phase Transition Studies of Ammonia Borane-Polyacrylamide Composites

Krishna Kharel, Radhika Gangineni, and Özge Günaydın-Şen

Department of Chemistry and Biochemistry, Lamar University, Beaumont, TX, 77710, USA
