Accepted Manuscript

The role of sulfate in the chemical synthesis of graphene oxide

João Paulo A. de Mendonça, Alessandro H. Lima, Juan C. Roldao, Jefferson da S. Martins, Georgia M.A. Junqueira, Welber G. Quirino, Fernando Sato

PII: S0254-0584(18)30418-8

DOI: 10.1016/j.matchemphys.2018.05.022

Reference: MAC 20637

To appear in: Materials Chemistry and Physics

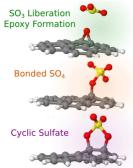

Received Date: 17 October 2017

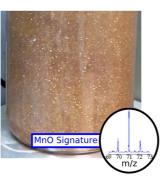

Revised Date: 7 May 2018
Accepted Date: 13 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
