Accepted Manuscript

Highly-efficient reinforcement and flame retardancy of rigid polyurethane foam with phosphorus-containing additive and nitrogen-containing compound

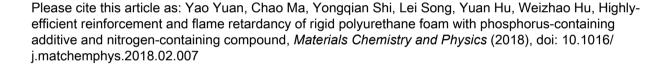

Yao Yuan, Chao Ma, Yonggian Shi, Lei Song, Yuan Hu, Weizhao Hu

PII: S0254-0584(18)30102-0

DOI: 10.1016/j.matchemphys.2018.02.007

Reference: MAC 20358

To appear in: Materials Chemistry and Physics

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
