### **Accepted Manuscript**

Mechanism of activity enhancement of the Ni based hydrotalcite-derived materials in carbonyl sulfide removal

Shunzheng Zhao, Honghong Yi, Xiaolong Tang, Dongjuan Kang, Qingjun Yu, Fengyu Gao, Jiangen Wang, Yonghai Huang, Zhongyu Yang

PII: S0254-0584(17)30872-6

DOI: 10.1016/j.matchemphys.2017.11.002

Reference: MAC 20122

To appear in: Materials Chemistry and Physics

Received Date: 8 April 2017

Revised Date: 10 October 2017 Accepted Date: 1 November 2017

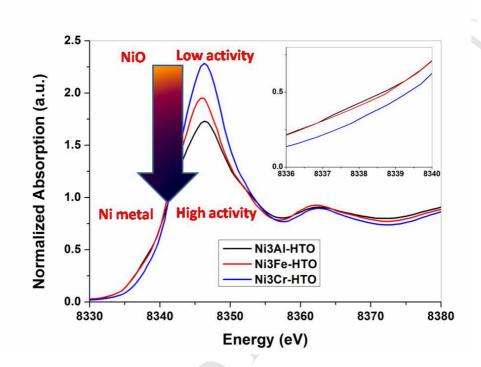

Please cite this article as: S. Zhao, H. Yi, X. Tang, D. Kang, Q. Yu, F. Gao, J. Wang, Y. Huang, Z. Yang, Mechanism of activity enhancement of the Ni based hydrotalcite-derived materials in carbonyl sulfide removal, *Materials Chemistry and Physics* (2017), doi: 10.1016/j.matchemphys.2017.11.002.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
