

Author's Accepted Manuscript

Ab initio studies of the interaction of formaldehyde with beryllium oxide nanotube

Somayeh. F. Rastegar, Ali Ahmadi Peyghan,
Hamed Soleymanabadi

PII: S1386-9477(14)00433-0
DOI: <http://dx.doi.org/10.1016/j.physe.2014.12.005>
Reference: PHYSE11796

To appear in: *Physica E: Low-dimensional Systems and Nanostructures*

Received date: 3 May 2014
Revised date: 25 November 2014
Accepted date: 4 December 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

***Ab initio* studies of the interaction of formaldehyde with beryllium oxide nanotube**
