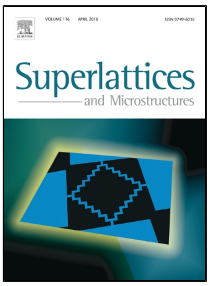
Accepted Manuscript



Thermal annealing induced the tunable optical properties of silver thin films with linear variable thickness

Ruijin Hong, Wen Shao, Jialin Ji, Chunxian Tao, Dawei Zhang

PII:	S0749-6036(18)30394-X
DOI:	10.1016/j.spmi.2018.04.008
Reference:	YSPMI 5622
To appear in:	*Superlattices and Microstructures*
Received Date:	27 February 2018
Revised Date:	31 March 2018
Accepted Date:	05 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
