

## Author's Accepted Manuscript

Three-dimensional carbon framework anode improves sodiation–desodiation properties in ionic liquid electrolyte

Xu-Feng Luo, Ahmed S. Helal, Chien-Te Hsieh, Ju Li, Jeng-Kuei Chang

PII: S2211-2855(18)30272-6  
DOI: <https://doi.org/10.1016/j.nanoen.2018.04.043>  
Reference: NANOEN2673

To appear in: *Nano Energy*

Received date: 16 January 2018  
Revised date: 26 February 2018  
Accepted date: 15 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Three-dimensional carbon framework anode improves sodiation–  
desodiation properties in ionic liquid electrolyte**
