

Author's Accepted Manuscript

Three-dimensional carbon frameworks enabling MoS₂ as anode for dual ion batteries with superior sodium storage properties

Chunyu Cui, Zengxi Wei, Jiantie Xu, Yiqiong Zhang, Shenghong Liu, Huakun Liu, Minglei Mao, Shuangyin Wang, Jianmin Ma, Shixue Dou

PII: S2405-8297(18)30080-1
DOI: <https://doi.org/10.1016/j.ensm.2018.03.011>
Reference: ENSM338

To appear in: *Energy Storage Materials*

Received date: 22 January 2018
Revised date: 20 February 2018
Accepted date: 14 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
