In operando observation of chemical and mechanical stability of Li and Na dendrites under quasi-zero electrochemical field

Yi-Sheng Hong, Na Li, Haosen Chen, Peng Wang, Wei-Li Song, Daining Fang

PII: S2405-8297(17)30375-6
DOI: <https://doi.org/10.1016/j.ensm.2017.10.007>
Reference: ENSM229

To appear in: *Energy Storage Materials*

Received date: 15 August 2017
Revised date: 1 October 2017
Accepted date: 11 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Authorship**In operando observation of chemical and mechanical stability of Li and Na dendrites under quasi-zero electrochemical field**
