Application of X-ray computed tomography for the characterization of graphite morphology in compact-graphite iron

Chihpin Chuang, Dileep Singh, Peter Kenesei, Jon Almer, John Hryn, Richard Huff

PII: S1044-5803(16)30234-0
DOI: doi: [10.1016/j.matchar.2016.08.007](https://doi.org/10.1016/j.matchar.2016.08.007)
Reference: MTL 8341

To appear in: *Materials Characterization*

Received date: 5 March 2016
Revised date: 14 June 2016
Accepted date: 9 August 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Application of X-ray Computed Tomography for the characterization of graphite morphology in compact-graphite iron
