Improvement of room and high temperature tensile properties of NiAl-strengthened ferritic heat-resistant steels through Mo addition

Ken Cho, Kenshi Ikeda, Hiroyuki Y. Yasuda

PII: S0921-5093(18)30684-1  
DOI: <https://doi.org/10.1016/j.msea.2018.05.034>  
Reference: MSA36472

To appear in: *Materials Science & Engineering A*

Received date: 24 January 2018  
Revised date: 9 May 2018  
Accepted date: 10 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Improvement of room and high temperature tensile properties of  
NiAl-strengthened ferritic heat-resistant steels through Mo addition**
