

Author's Accepted Manuscript

Fatigue behavior and microstructural characteristics of a duplex stainless steel weld metal under vibration-assisted welding

Yu-Ting Tsai, Po-Chiang Lin, Yu-Wen Chen, Shing-Hoa Wang, Jer-Ren Yang

PII: S0921-5093(18)30315-0
DOI: <https://doi.org/10.1016/j.msea.2018.02.096>
Reference: MSA36183

To appear in: *Materials Science & Engineering A*

Received date: 26 January 2018
Revised date: 25 February 2018
Accepted date: 26 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Fatigue behavior and microstructural characteristics of a duplex stainless steel weld metal under vibration-assisted welding
