Influence of last stage heat treatment on microstructure and mechanical properties of laser additive manufactured AF1410 steel

Yifan Li, Xu Cheng, Dong Liu, Huaming Wang

PII: S0921-5093(17)31625-8  
DOI: <https://doi.org/10.1016/j.msea.2017.12.029>  
Reference: MSA35871

To appear in: *Materials Science & Engineering A*

Received date: 23 September 2017  
Revised date: 7 December 2017  
Accepted date: 8 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Influence of last stage heat treatment on microstructure and mechanical properties of laser additive manufactured AF1410 steel**
