

Author's Accepted Manuscript

The effects of zirconium and beryllium on microstructure evolution, mechanical properties and corrosion behaviour of as-cast AZ63 alloy

Hassan Jafari, Peyman Amiryavari

PII: S0921-5093(15)30728-0
DOI: <http://dx.doi.org/10.1016/j.msea.2015.12.034>
Reference: MSA33117

To appear in: *Materials Science & Engineering A*

Received date: 13 November 2015
Revised date: 6 December 2015
Accepted date: 11 December 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**The effects of zirconium and beryllium on microstructure evolution,
mechanical properties and corrosion behaviour of as-cast AZ63 alloy**
