Nanoindentation creep behavior in a CoCrFe-CuNi High-entropy alloy film with two different structure states

Y. Ma, G.J. Peng, D.H. Wen, T.H. Zhang

www.elsevier.com/locate/msea

PII: S0921-5093(14)01317-3
DOI: <http://dx.doi.org/10.1016/j.msea.2014.10.065>
Reference: MSA31698

To appear in: *Materials Science & Engineering A*

Received date: 12 September 2014
Revised date: 22 October 2014
Accepted date: 23 October 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Nanoindentation creep behavior in a CoCrFeCuNi high-entropy alloy film with
two different structure states**
