First-principles study on influence of molybdenum on acicular ferrite formation on TiC particles in microalloyed steels

Guomin Hua, Changsheng Li, Xiaonong Cheng, Xinluo Zhao, Quan Feng, Zhijie Li, Dongyang Li, Jerzy A. Szpunar

PII: S0038-1098(17)30317-4

DOI: [10.1016/j.ssc.2017.10.001](https://doi.org/10.1016/j.ssc.2017.10.001)

Reference: SSC 13293

To appear in: *Solid State Communications*

Received Date: 6 May 2017

Revised Date: 2 August 2017

Accepted Date: 1 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# First-Principles Study on Influence of Molybdenum on Acicular Ferrite Formation on TiC Particles in Microalloyed Steels
