

## Accepted Manuscript

Increase of surface hardness and substrate toughness due to migration of grain growth inhibitors in the ultrafine-grained layer during sintering of functionally graded cemented carbides

M.I. Dvornik

PII: S0263-4368(18)30206-3

DOI: [doi:10.1016/j.ijrmhm.2018.06.004](https://doi.org/10.1016/j.ijrmhm.2018.06.004)

Reference: RMHM 4746

To appear in: *International Journal of Refractory Metals and Hard Materials*

Received date: 26 March 2018

Revised date: 9 June 2018

Accepted date: 11 June 2018
