

# Accepted Manuscript

A new hardness model for materials design in cemented carbides

Martin Walbrühl, David Linder, John Ågren, Annika Borgenstam

PII: S0263-4368(18)30123-9  
DOI: doi:[10.1016/j.ijrmhm.2018.04.004](https://doi.org/10.1016/j.ijrmhm.2018.04.004)  
Reference: RMHM 4705

To appear in: *International Journal of Refractory Metals and Hard Materials*

Received date: 22 February 2018  
Revised date: 5 April 2018  
Accepted date: 7 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
