Effect of rolling speeds on texture modification and mechanical properties of the AZ31 sheet by a combination of equal channel angular rolling and cyclic bending at high temperature

Jian Tu, Tao Zhou, Lei Liu, Laixin Shi, Li Hu, Denghui Song, Bo Song, Mingbo Yang, Qiang Chen, Fusheng Pan

PII: S0925-8388(18)32743-9

DOI: [10.1016/j.jallcom.2018.07.242](https://doi.org/10.1016/j.jallcom.2018.07.242)

Reference: JALCOM 46958

To appear in: *Journal of Alloys and Compounds*

Received Date: 24 February 2018

Revised Date: 19 July 2018

Accepted Date: 21 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
