Accepted Manuscript

Influence of alumina nanoparticles on microstructure and properties of Ni-B composite coating

Baosong Li, Xiao Li, Yuxing Huan, Wenzhe Xia, Weiwei Zhang

PII: S0925-8388(18)31946-7

DOI: 10.1016/j.jallcom.2018.05.227

Reference: JALCOM 46203

To appear in: Journal of Alloys and Compounds

Received Date: 18 March 2018

Revised Date: 8 May 2018

Accepted Date: 20 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Influence of alumina nanoparticles on microstructure and properties of Ni-B composite coating
