

## Accepted Manuscript

Electrospun scaffolds with enlarged pore size: porosimetry analysis

Pablo R. Cortez Tornello, Pablo C. Caracciolo, Juan I. Igartúa Roselló, Gustavo A. Abraham

PII: S0167-577X(18)30826-7  
DOI: <https://doi.org/10.1016/j.matlet.2018.05.072>  
Reference: MLBLUE 24372

To appear in: *Materials Letters*

Received Date: 6 March 2018  
Revised Date: 5 May 2018  
Accepted Date: 15 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
