

## Accepted Manuscript

Hydrothermal synthesis, characterization and enhanced photocatalytic performance of ZnO toward degradation of organic azo dye

Tammanoon Chankhanittha, Suwat Nanan

PII: S0167-577X(18)30774-2  
DOI: <https://doi.org/10.1016/j.matlet.2018.05.032>  
Reference: MLBLUE 24332

To appear in: *Materials Letters*

Received Date: 30 January 2018  
Revised Date: 17 April 2018  
Accepted Date: 6 May 2018

Please cite this article as: T. Chankhanittha, S. Nanan, Hydrothermal synthesis, characterization and enhanced photocatalytic performance of ZnO toward degradation of organic azo dye, *Materials Letters* (2018), doi: <https://doi.org/10.1016/j.matlet.2018.05.032>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
