

## Accepted Manuscript

Ethylene glycol mediated facile and controlled growth of ultralong hexagonal silver molybdate microrods

Javier Enriquez Montenegro, Carolina Manquian Villalobos, Dinesh Pratap Singh

PII: S0167-577X(17)31826-8  
DOI: <https://doi.org/10.1016/j.matlet.2017.12.068>  
Reference: MLBLUE 23566

To appear in: *Materials Letters*

Received Date: 20 October 2017  
Revised Date: 14 December 2017  
Accepted Date: 17 December 2017

Please cite this article as: J.E. Montenegro, C.M. Villalobos, D.P. Singh, Ethylene glycol mediated facile and controlled growth of ultralong hexagonal silver molybdate microrods, *Materials Letters* (2017), doi: <https://doi.org/10.1016/j.matlet.2017.12.068>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Ethylene glycol mediated facile and controlled  
growth of ultralong hexagonal silver molybdate  
microrods**
