Effect of alloying elements in Ni-base substrate material on interdiffusion processes in MCrAlY-coated systems

T. Galiullin, A. Chyrkin, R. Pillai, R. Vaßen, W.J. Quadakkers

PII: S0257-8972(18)30717-5  
DOI: doi:[10.1016/j.surfcoat.2018.07.020](https://doi.org/10.1016/j.surfcoat.2018.07.020)  
Reference: SCT 23584  
To appear in: *Surface & Coatings Technology*  
Received date: 15 May 2018  
Revised date: 2 July 2018  
Accepted date: 5 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Effect of alloying elements in Ni-base substrate material on interdiffusion processes in  
MCrAlY-coated systems**
