High-emissivity composite-oxide fillers for high temperature stable aluminum'chromium phosphate coating

Zhikai Liu, Qiu Sun, Ying Song, Jiao Yang, Xiangqun Chen, Hairui Wang, Zhaohua Jiang

PII: S0257-8972(18)30603-0
DOI: doi:[10.1016/j.surfcoat.2018.06.028](https://doi.org/10.1016/j.surfcoat.2018.06.028)
Reference: SCT 23479
To appear in: *Surface & Coatings Technology*
Received date: 18 April 2018
Revised date: 6 June 2018
Accepted date: 15 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

High-emissivity composite-oxide fillers for high temperature stable**aluminum-chromium phosphate coating**
