This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Dear Editor:

Attached please find our manuscript entitled "**Formation of Fe-TiC composite clad layers on steel using the combustion synthesis process**" after revision.

We have made the corrections as commented by the reviewer and highlighted the modifications throughout the manuscript. We have also attached a point-by-point response to reviewer's comments.

Your kind consideration is highly appreciated.

Yours sincerely,

Mandana Adeli, (Corresponding Author)
