

## Accepted Manuscript

Preparation of ferrosilicon-aluminium coating using a mechanical alloying technique: Study of thermal annealing on their structural characteristics

Didik Aryanto, Toto Sudiro

PII: S0257-8972(17)31264-1  
DOI: <https://doi.org/10.1016/j.surfcoat.2017.12.041>  
Reference: SCT 22959  
To appear in: *Surface & Coatings Technology*  
Received date: 28 August 2017  
Revised date: 16 December 2017  
Accepted date: 18 December 2017

Please cite this article as: Didik Aryanto, Toto Sudiro , Preparation of ferrosilicon-aluminium coating using a mechanical alloying technique: Study of thermal annealing on their structural characteristics. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Sct(2017), <https://doi.org/10.1016/j.surfcoat.2017.12.041>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Preparation of Ferrosilicon-Aluminium Coating using a Mechanical Alloying Technique:  
Study of Thermal Annealing on Their Structural Characteristics

Didik Aryanto, Toto Sudiro\*
