Effect of atmospheric-controlled induction-heating fine particle peening on electrochemical characteristics of austenitic stainless steel

Shoichi Kikuchi, Shota Iwamae, Hiroyuki Akebono, Jun Komotori, Keisuke Kadota

PII: S0257-8972(17)30778-8
DOI: doi: [10.1016/j.surfcoat.2017.08.001](https://doi.org/10.1016/j.surfcoat.2017.08.001)
Reference: SCT 22562

To appear in: *Surface & Coatings Technology*

Received date: 16 March 2017

Revised date: 28 July 2017

Accepted date: 1 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
